### Profile

---

Full-Stack Developer with 3 years of experience in frontend development, backend integration, and UI/UX design. Skilled in building responsive and user-friendly web applications using modern technologies such as React, Node.js, and MySQL. Strong understanding of software development principles, clean code, and scalable architecture. Passionate about creating high-quality digital experiences and continuously learning new technologies.

### Experience

---

#### Full-Stack Web Developer (Freelance / Remote)

Tyre, Lebanon

- Developed responsive websites and full-stack web applications for freelance and academic projects.
- Designed modern user interfaces with a strong focus on UX, usability, and mobile responsiveness.
- Built backend features including REST APIs, authentication, and database integration.
- Tested, debugged, and optimized applications for performance and scalability.
- Managed complete project lifecycle from planning to deployment.

#### Academic Software Development Projects

- Developed multiple full-stack and frontend projects simulating real-world requirements.
- Worked on UI design, backend logic, and database integration.
- Applied software engineering principles, clean architecture, and Git version control.
- Gained experience working on individual and team-based development projects.

### EDUCATION

---

#### Bachelor of Science in Computer Science,

Tyre, Lebanon

*Lebanese International University (LIU), Tyre, Lebanon*

GPA: 3.86 / 4.00

- Dean's Honor List (6 times)
- Studied data structures, algorithms, software engineering, and database systems
- Completed multiple real-world web development projects
- Strong foundation in SDLC and team collaboration

## Skills

### Data Layer

MySQL, MariaDB, SQL, Database Design

### UI/UX

Figma, Wireframing, Prototyping, Responsive Design

### Backend

Node.js, Express.js, PHP, REST APIs, Authentication

### Tools

Git, GitHub, VS Code, Netlify, Render, XAMPP, WAMP, etc..

### Soft Skills

Problem Solving, Communication, Teamwork, Time Management, Adaptability, Fast Learning

## Projects

---

### AI Career Coach & Job Preparation Platform (Senior Project)

Full-stack AI-powered career development platform that provides resume analysis, skill gap detection, interview simulation, and personalized learning roadmaps using LLMs. Built with React, Node.js, Express, MySQL, and Groq / LLaMA 3.3 APIs. Focused on scalable backend architecture and modern UI/UX design.

**GitHub:** <https://github.com/Shaymaa-Ma/ai-career-coach-platform.git> 

### Mood Tracker Web App (Full-Stack Project)

Web application for tracking daily moods and visualizing emotional patterns. Includes authentication, CRUD operations, and data visualization features. Built using React, Node.js, Express, and MySQL. Deployed backend on Render.

**GitHub:** <https://github.com/Shaymaa-Ma/InnerGlow.git> 

### Alibaba Clone (Frontend Project)

Responsive e-commerce frontend inspired by Alibaba with reusable components and routing system. Built using React, TypeScript, Vite, and Tailwind CSS. Focus on UI structure, component reusability, and state management.

**GitHub:** <https://github.com/Shaymaa-Ma/alibaba-clone.git> 

### Flower Shop Website (First Project – Frontend)

First full website project focused on UI design and frontend development. Built using HTML, CSS, JavaScript, Bootstrap, and PHP. Responsive layout with basic e-commerce structure.

**GitHub:** <https://github.com/Shaymaa-Ma/BloomsHugWebsite.git> 

### Event Management System (UI/UX Design Project)

UI/UX design for a multi-role event management system (attendees, organizers, vendors, sponsors). Includes wireframes, user flows, and interactive prototype designed in Figma.

**View Design:** <https://www.figma.com/design/xBtafnFyjP0k4Fxn3e7ein/Planora-Website?node-id=0-1&t=7YxdRakrVXuty1YB-1>
