- UI/UX:** Figma, Wireframing, Prototyping, Responsive Design
- Tools:** Git, GitHub, VS Code, Netlify, Render, XAMPP, WAMP
- Soft Skills:** Problem Solving, Communication, Teamwork, Time Management, Adaptability

EDUCATION

Bachelor of Science in Computer Science

2023 – Present

Lebanese International University (LIU)

Tyre, Lebanon

- 2023 – Expected Jan 2027
- GPA: 3.86 / 4.00 — Dean's Honor List (6 times)
- Studied data structures, algorithms, software engineering, and database systems.
- Completed multiple real-world web development projects.
- Learned software engineering methodologies and collaborative tools to work effectively in team-based software development projects.

PROJECTS

AUTO MOTORS SARL — Client Project

Full-Stack Web Application

Developed a full-stack automotive website and admin dashboard using React, Node.js, Express.js, and MySQL, with REST APIs, responsive UI/UX, and database-driven content management.

GitHub: github.com/Shaymaa-Ma/auto-motors-portfolio 🔗

AI Career Coach & Job Preparation Platform

Senior Project — AI-Powered Platform

Full-stack AI career platform with resume analysis, skill-gap detection, interview simulation, and personalized roadmaps. Built with React, Node.js, Express, MySQL, and Groq API (LLaMA 3.3 70B).

GitHub: github.com/Shaymaa-Ma/ai-career-coach-platform 🔗

LIWAN — QR Digital Menu System

Live Product

Responsive QR menu system with customer menu browsing and secure admin management of categories, items, images, prices, and availability. Built with PHP, MySQL, Bootstrap, HTML, CSS, and JavaScript.

GitHub: github.com/Shaymaa-Ma/liwan-qr-digital-menu 

Live Demo: liwanmenu.site.je 

InnerGlow — Mood Tracker

Full-Stack Web Application

Web application for tracking daily moods and visualizing emotional patterns, with authentication, CRUD operations, and data-visualization features. Built with React, Node.js, Express, and MySQL; backend deployed on Render.

GitHub: github.com/Shaymaa-Ma/InnerGlow 

Constructify — Construction Company Portfolio

Full-Stack Web Application

Responsive construction portfolio with dynamic React frontend, PHP API, MySQL database, project filtering, image lightbox, and database-driven content.

GitHub: <https://github.com/Shaymaa-Ma/constructify-portfolio.git> 

Planora — Event Management System

UI/UX Design Project

Multi-role event management platform designed in Figma, covering attendees, organizers, vendors, and sponsors through user flows, wireframes, and an interactive prototype.
