PROFILE

Full-Stack Developer with three years of experience in frontend development, backend integration, and UI/UX design. Skilled in building responsive, user-friendly web applications using modern technologies such as React, Node.js, and MySQL. Strong understanding of software development principles, clean code, and scalable architecture. Passionate about creating high-quality digital experiences and continuously learning new technologies.

SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, TypeScript, React.js, Vite, Bootstrap, Tailwind CSS
- **Backend:** Node.js, Express.js, PHP, REST APIs, Authentication
- **Data Layer:** MySQL, MariaDB, SQL, Database Design
- **UI/UX:** Figma, Wireframing, Prototyping, Responsive Design
- **Tools:** Git, GitHub, VS Code, Netlify, Render, XAMPP, WAMP and more.
- **Soft Skills:** Problem Solving, Communication, Teamwork, Time Management, Adaptability, Fast Learning
- **Performance & Optimization:** Responsive Web Design, Page Optimization, Cross-Browser Compatibility

PROJECTS

AI Career Coach & Job Preparation Platform

Senior Project

Full-stack AI-powered career development platform providing resume analysis, skill-gap detection, interview simulation, and personalized learning roadmaps using LLMs. Built with React, Node.js, Express, MySQL, and the Groq API with LLaMA 3.3 70B. Focused on scalable backend architecture and modern UI/UX design.

LIWAN — QR Digital Menu System

Live Product

Responsive QR digital menu system for a restaurant, inspired by Lebanese fine dining. Customers browse the menu by scanning a QR code; admins manage categories, items, images, prices, and availability through a secure dashboard with on-demand QR code generation. Built with PHP, MySQL, Bootstrap, HTML5, CSS3, and JavaScript.

Live Demo: liwanmenu.site

InnerGlow — Mood Tracker

Full-Stack Project

Web application for tracking daily moods and visualizing emotional patterns, with authentication, CRUD operations, and data-visualization features. Built with React, Node.js, Express, and MySQL; backend deployed on Render.

GitHub: github.com/Shaymaa-Ma/InnerGlow

BloomsHug — Flower Shop Website

First Project

First full website project, focused on UI design and frontend fundamentals. Built with HTML, CSS, JavaScript, Bootstrap, and PHP, with a responsive layout and basic e-commerce structure.

GitHub: github.com/Shaymaa-Ma/BloomsHugWebsite 

Alibaba Clone

Frontend Project

Responsive e-commerce frontend inspired by Alibaba, with reusable components and a routing system. Built with React, TypeScript, Vite, and Tailwind CSS — focused on UI structure, component reusability, and state management.

GitHub: github.com/Shaymaa-Ma/alibaba-clone 

Planora — Event Management System

UI/UX Design Project

UI/UX design for a multi-role event management platform (attendees, organizers, vendors, sponsors), including wireframes, user flows, and an interactive prototype designed in Figma.
